flyhaa.com

We can help you attain your dream of becoming a professional airplane pilot. For over 40 years we have helped hundreds of students, from around the world, do just that — live their dream.

LEARNING, LIVING & WORKING IN THE US

We are one of a few airplane flight training schools authorized to offer the F-1 Visa. The F-1 Visa enables students to study in the United States, attain their FAA pilot certifications, and then work as a pilot in the US to build valuable flight hours. Our quality training programs combined with real world flight experience ensure that our students gain the expertise, skills, and competitive edge needed to succeed.

INDIVIDUALIZED ATTENTION

As Hillsboro Aero Academy, we personalize the experience for each and every student and work with them to understand their individual goals. Each student has a tailored training plan to ensure the learning journey meets their personal aspirations.

QUALITY INSTRUCTION FOCUSED ON SAFETY

Quality instructors and an embedded safety culture are at the heart of our approach. Hillsboro Aero Academy is one of the first flight academies in the US to attain IS-BAO accreditation from the International Business Aviation Council — recognition for the exceptional safety standards and practices we maintain.

AUTHENTIC, REAL WORLD EXPERIENCE

The unique location of Hillsboro Aero Academy's campuses on the West Coast of the United States offers an exceptional learning environment. Our students have the opportunity to train in terrain and weather conditions that emulate real-world conditions — from desert plains to mountain ranges, coastal areas and more — students benefit from a diverse training experience.

CONNECTIONS TO OVER 75 COUNTRIES

With over 40 years of experience training professional pilots, we have the reputation and connections to help you take that first step in your career. Our alumni network spans the globe and helps open doors for our students.

COLLEGE DEGREE PROGRAMS

Through our college partnerships, you are able to obtain your aviation degree and your pilot certifications together. You can earn a two or four-year college degree from one of our partner colleges in tandem with your flight training at Hillsboro Aero Academy.

To learn more about Hillsboro Aero Academy's Professional Pilot Program, contact our admissions team at 1.503.726.3000 or info@flyhaa.com.
